## Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2011 - December 31, 2011

Filing Confirmation Number: 0005030204

Filing Deadline: January 17, 2012

FRN: 0016232142

Filing Date: 01/13/2012 04:32 PM

### General Report Information

#### Type of Company

Service Provider

#### De Minimis Exception

Did you offer more than two handsets over any air interface to service providers (if you are a device manufacturer) or to subscribers (if you are a service provider) during this reporting period? Yes

Did you offer any handsets to service providers (if you are a device manufacturer) or to subscribers (if you are a service provider) during this reporting period?

#### Company Information

Company Name: CLTel Wireless, Inc.  
Brand Names: iWireless  
PO Box: 66  
Street Address: 107 N 4th St  
City: Clear Lake  
State: IA  
Zip Code: 50428

Contact Name: Hillary Bartell  
Contact Phone: (641) 357-2111  
Contact Fax: (641) 357-8800  
Contact Email: cltel@cltel.com

#### Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

#### Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency band that does not currently have hearing aid compatibility technical standards have clear and effective disclosure that the handset has not been rated for hearing aid compatibility with respect to such operations? Yes

Explain:

#### Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those

models, and an explanation of the rating system? No

Website address:

Explain: CLTel Wireless, Inc. is a small rural service provider that provides service in conjunction with the iWireless network. The company does not maintain its own website, but the basic information about its parent company, Clear Lake Telephone Company (CLTel), and links to the iWireless site are available at [www.cltel.com](http://www.cltel.com). Because the Company lacks the personnel and resources necessary to maintain an extensive site (and because such resources are better used for extending service to rural and underserved areas), information about the company's iWireless service and a complete list of handset offerings (including a click-box feature that allows customers to easily sort and identify hearing aid compatible devices) is provided at <http://www.iwireless.com/phonesview.asp>. An explanation of the HAC rating system, along with links to industry resources, a list of compliant devices and their compatibility ratings, a description of the company's methodology for determining handset functionality and information on other wireless accessibility options for the deaf and hard of hearing are readily available to the public at [http://www.iwireless.com/customer\\_support-hearing\\_aid.asp](http://www.iwireless.com/customer_support-hearing_aid.asp).

### Consumer Outreach

Describe consumer outreach efforts in the past 12 months: CLTel Wireless, Inc. provides in its retail outlets signs and brochures regarding the availability of hearing aid compatible handsets. In addition, the company has instructed its sales staff about the availability of hearing-aid compatible phone models.

### Methodology for Functionality Levels

Basic phones (entry-level phones that are offered for low cost or free); Feature phones (devices with more advanced capabilities); Smartphones/PDAs (devices that run complete operating system software as a platform for application developers).

### Report Remarks

Carrier may offer certain handsets that are capable of operating on more than one air interface. Carrier currently operates only on the GSM air interface. The Commission has made it clear that the HAC handset phase-in requirements specified in Section 20.19(c)(3) apply only "for each air interface it offers." Report and Order, 18 FCC Rcd 16753 (2003) at ¶ 53. Moreover, these handset phase-in requirements are triggered only after a service provider has begun offering service using a particular air interface. Memorandum Opinion and Order, 22 FCC Rcd 7171 (2007) at ¶ 60.

You have reported the following handset model summary information.

Total number of handsets offered: 48

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent	
GSM	19	40%	14	29%	15	31%	48
WCDMA	12	57%	7	33%	2	10%	21
